The open hole design on top of universal pattern hollow mat helps to wipes out the dirt and the studded bottom adds to comfort while enhancing drainage and cleanliness. These mats are of Modular design and can be cover large floor area by using connectors.

Octagonal pattern Square edged

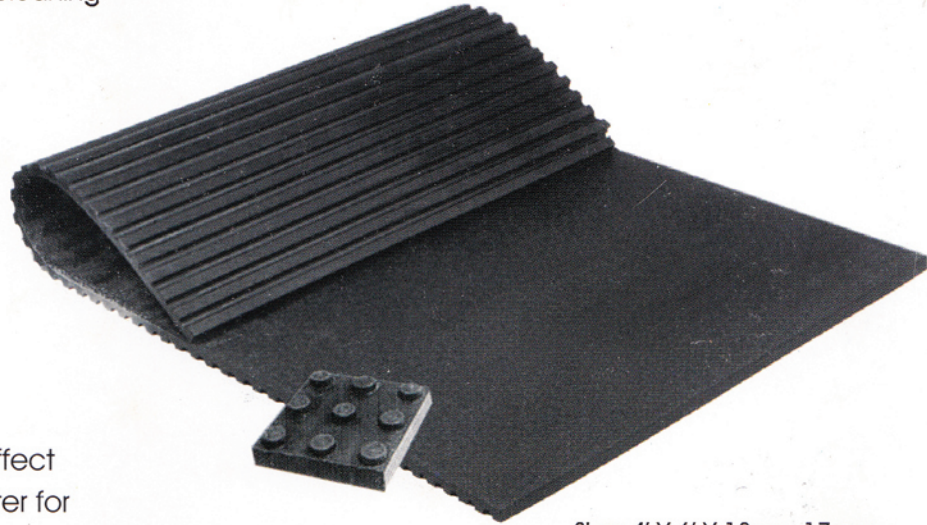

Sizes available 23mm Thick
100 X 150 cm

STABLE AND COW MAT

These mats are for cows and horses ensuring totally hygienic and germ-free surroundings. The specially designed rubber surfaces reduce the probability of trapped bacteria and sickness. Cushion comfort provides cow knee, hock and udder protection - increases milk, fat and meat production - reduces veterinarian bills. Farmers have often found mats to be the solution to cow foot problems, after unsuccessfully trying foot baths and other remedies.

While the grooved bottom surface provides more stability, smooth top surface makes cleaning easier and faster.

Stable Mats with grooves at the bottom and plain, amebic top

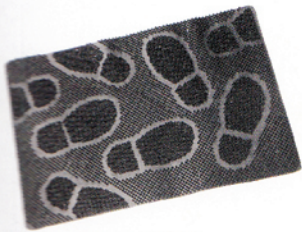

Sizes 4' X 6' X 18mm, 17mm

Taper Edged Stud Mat

Stud mats

gives you a cushioning effect and also better for removing mud. These are covered with hundreds of flexible rubber studs/fingers so that it gives an acupressure effect.
